

CS 498 MP2

1. The following correspondences were found:

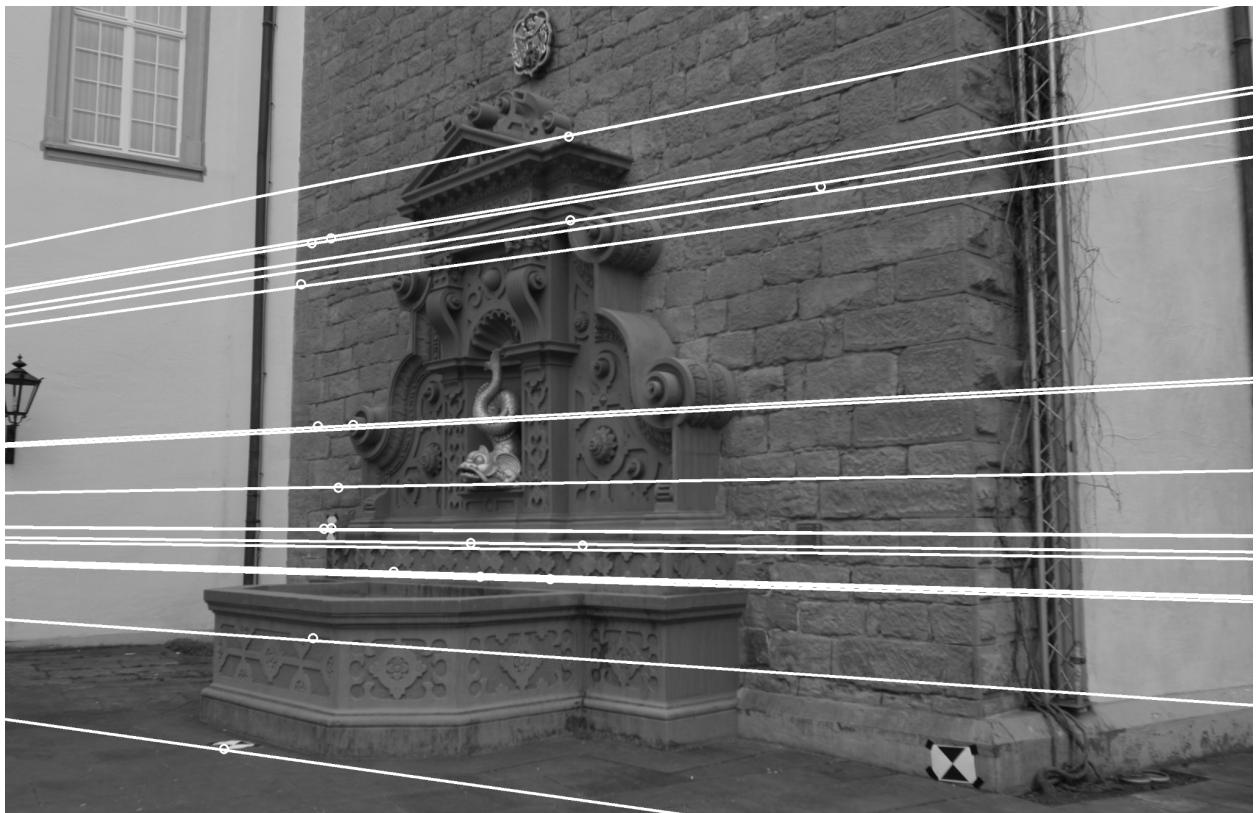

2. $F_{\text{with_normalization}}$ average geo distance: 0.016309736505422265
3. $F_{\text{without_normalization}}$ average geo distance: 0.016309736505422875.
- For RANSAC, we do not go through all the keypoint matches because only 8 keypoint matches are needed to perform the fundamental matrix calculation.
4. Without RANSAC

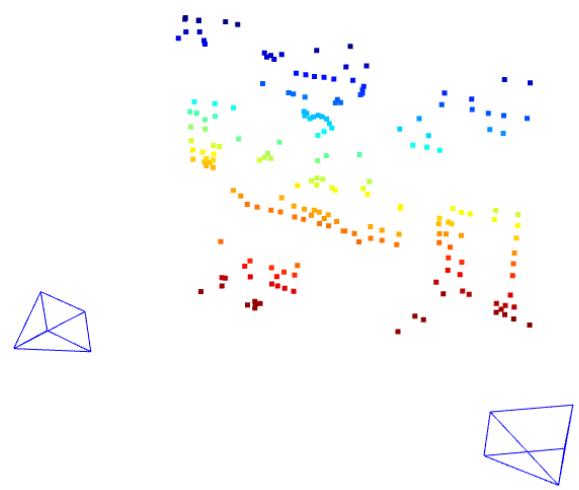

With RANSAC

- 5.
6. K1 and K2 are scaled by a factor of 1/scale.
